AESI is a cultural association that has as its main target the promotion of human rights in politics and international cooperation. AESI wants to develop in particular, with its activities, a real culture of cooperation among populations and Nations, respecting human being's dignity and identity. AESI wants to contribute to the training of those young students who are preparing themselves for a diplomatic career or a career in the European or International Institutions. More than 3000 students and young graduates have already taken part in the Seminars organised together with the Diplomatic Studies Club, the Centre for Advanced Defence Studies, the Ministry of Foreign Affairs, the European Commission and the European Parliament Information Office in Italy. AESI has also organized many International FORUMS in the Balkan Area (at the University of Sarajevo with EUFOR), in the Middle East (at USEK and Lebanese Universities in Lebanon with UNIFIL, with Israel and Palestinian Universities at UNTSO, at the Universities in Cyprus with UNFICYP), at the NATO Headquarters in Brussels, at the European Parliament, at the Italian Permanent Representation to the European Commission, at OCED in Paris and at UNOG in Geneva in 2015. Many of AESI students have already started a diplomatic career, or are working in the relevant offices of International Organizations. Among the speakers of AESI's events, there are more than 100 Ambassadors, representatives of the United Nations, the European Commission, the European Parliament, Generals and University Professors who have contributed with their fieldwork and with their knowledge and experience. The Association is a non profit organisation and is totally independent from a political point of view.

AMBASSADOR DANIELE MANCINI – AESI SCIENTIFIC COMMITTEE

“Knowing the past is central to build a future of global peace and solidarity. Training new students today is the key to prevent yesterday’s mistakes by the leaders of tomorrow. Our commitment towards young generations is to provide them all the valuable teachings they need to understand the international complexity. A multidisciplinary education is necessary to develop their thinking in a way which allows them to be fully aware of the connected world around us, hoping they will be able to make it a better place to live in.”

Ambassador Daniele Mancini

Former Ambassador of Italy to The Holy See - AESI Scientific Committee

AMBASSADOR GABRIELE CHECCHIA – AESI SCIENTIFIC COMMITTEE

“AESI: Through young generations' enthusiasm, commitment and dedication, we build a better future for Europe and beyond, based on few solid pillars: self-respect and respect for the others, shared values, personal engagement in life and society, faith in the potential of culture, dialogue and reciprocal knowledge. We believe that All of them, are irreplaceable tools to nurture real peace, long lasting friendship and understanding between countries and nations.”

Ambassador Gabriele Checchia

**Former Permanent Representative of Italy to the International Organisations - Paris
AESI Scientific Committee**

GEN. VINCENZO CAMPORINI – AESI SCIENTIFIC COMMITTEE

Educating the new generations to understand the past in order to prepare the future is the only strategy which can prevent the repetition of mistakes which have plagued the history of mankind. Those who engage in such a task deserve the highest consideration and the young man and women who take this opportunity to grow provide us with the hope that tomorrow will be better than today. AESI is strongly engaged in such an effort and I will continue, within means and capabilities, to offer my external contribution, for the benefit of all.

YOUTH FORUM OF EUROPEAN UNIVERSITY STUDENTS

“So dear friends, I want to encourage you to work for peace, to work for solidarity and for the spirit I have felt in this room which is, I think, very inspiring. I’m speaking now to the students: I wish you good decisions in your personal and political lives since perhaps there are some people here who might one day be members of the European Parliament or of national parliaments. The 21st Century is your century, but if it has to be a good century, based on peace and solidarity, you cannot just wait that others will give to you; you have to work for it, you have to be engaged. I’m very happy to have been here with you this evening even though it has been for such a short time.”

Former President - Hans Pöttering - European Parliament

DIRECTOR GENERAL UNOG - GENEVA

AESI FORUM June 15, 2015

"Welcome to the Palace of Nations. It is always a pleasure to interact with young people. In particular with young people who are active in International Affairs studies. An innovative way of thinking is needed to maximize the benefits of existing systems and to tackle global challenges, here in Geneva and elsewhere. I therefore believe that You, who represent the next generation of thinkers and leaders of international business, You will be very busy. We look forward to seeing you at work! Good luck! "

ROBERT SCHUMAN

CON JEAN

MONNET

"Europe will not be made all at once, or according to a single plan. It will be built through concrete achievements which first create a de facto solidarity."

"Democracy owes its origin and development to Christianity. It was born when man was called to realize the dignity of the person in individual freedom, respect for the rights of others and the love of neighbor. Before Christian message these principles had not been formulated, nor they ever became the spiritual basis of an authority system." (Robert Schuman)

KONRAD ADENAUER

"We Europeans must exercise together also foreign policy, only this purpose can really help us." (Konrad Adenauer)

"In the long term the future of the West is not so much threatened by a political tension as from the danger of standardization, uniformity of thought and feeling; in short, from all over the life system, the escape from responsibility, with the only self-concern. This risk can really become fatal for the cultural progress" (Konrad Adenauer)

ALCIDE DE GASPERI

"At the origin of this European civilization is Christianity. I do not mean introducing any sectarian or exclusive policy, in appreciation of our history. I just want to talk about a common European legacy, of that unitary moral which enhances the person and the responsibility of the human being " (Alcide De Gasperi)

ALTIERO SPINELLI

"The task of achieving European unity is not entitled to an indeterminable generation of an indeterminable future, but it was up to our generation." (Altiero Spinelli)
