# TEVIP

*Translating European  
Values into Practice*

Erasmus+

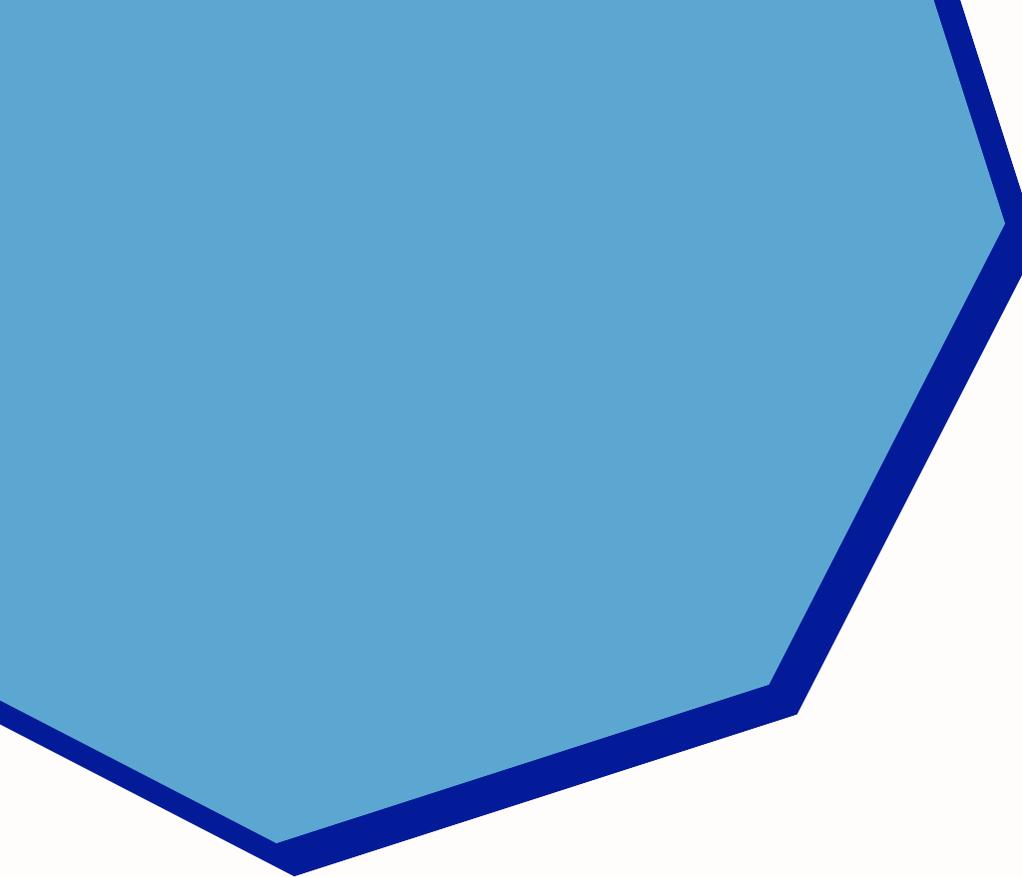

# TEVIP

---

**Dear Participants,**

We welcome you join us in our youth mobility taking place in Poronin, Poland this August 24-30th. In this infopack we will explain the main aims of TEVIP and how you can be apart of this expansive learning experience with youth your age from all around Europe. We look forward to meeting you and learning along side you.

**Your Project Organizers,  
Katie & Ziemowit**

# OUR AIM

In this youth mobility we will reflect on our identity as European citizens.

Together we will explore values such as **freedom, equality** and **solidarity** which stimulate political and social participation and active civic citizenship. We seek to provide engaging discussions about our expansive European identity, and find creative ways we can best cultivate the values we uphold as citizens of Europe. This youth mobility ambitiously aims to tackle these topics in a sensitive yet captivating way and **we want to accomplish this with you!**

# THE 'HOW' TO OUR AIM

Before this youth mobility starts, NGO leaders will have created innovated methodologies that bring European values from simply ideas into practice. This means multiple meetings have occurred to creatively find ways to engage youth in the work of social participation outside of just talking theory. So we won't just talk about what European values are and in theory what it looks like, no, we will embody these values and join in activities that bring these concepts to life. You will be involved in testing these new methodologies and sharing your valuable insights on how we can further prepare European youth for civic engagement.

The educational approach to these methodologies is based on **non formal learning principles**. This means through open dialogue, interactive exercises, and cultural nights we will exchange our experiences, knowledge and goals. In other words, we will be helping each other learn life lessons that can not simply be found in a textbook!

---

# POLAND

We will be taking advantage of the mountainous region we are situated in. We plan on having a solidarity hike to get to know each other and the beautiful agricultural region around us.

Just around the corner from our hotel there will be shops where food and other necessities can be purchased, Also near by is the famous skiing town, Zakopane, which has many souvenirs and tourist activities for you to visit on your free night.
